How to Get to the ENR2 Executive Conference Room, N604

There is 6th floor/roof access via the center staircase in the 5th floor north lobby, the main entrance for the Institute of the Environment.

There is also roof access via an elevator. The elevators are located at the northwest corner of the building, west of the restrooms in the courtyard on the first floor.

Using the elevator to get to the roof:
1. The right-side elevator car is the only car that goes to the roof. Using the call button on the inside of the elevator frame, you can call that car specifically. (See next page.)
2. Once inside the elevator, press the “R” button for the roof. This will take you to the 6th floor, and exit onto the roof patio area. *Note: This feature is locked, unless there is a prescheduled event on the roof or in N604.

Once on the roof, enter through the door for N606, which leads to the vestibule area at the top of the inside stairwell. N604 is to the right once inside.

The next page will take you on a photo journey to N604 via the elevator.

There is one accessible, all-gender restroom located on the east side of the roof, outside of N604. There is a women’s restroom in the northeast corner of the 5th floor, and a men’s in the southeast corner.
A Photo Journey to the ENR2 Executive Conference Room, N604

1. Only the right-hand car.  
2. Press the *inside* call button.  
3. Press the “R” button for roof.

4. Elevator opens to roof.  
5. Use N606 door to enter.  
6. Enter N604 through vestibule.
